Luce e ombra sono sorelle, si vestono l'una dell'altra
come sculture in movimento.

Tra artigianato e moderno design,
studio e ricerca si combinano nella sapiente
rarefazione del lusso creando soluzioni preziose.

Onici e oro, marmo, vetro, filigrana,
lavorazioni accurate verso una linearità superiore,
cesellature pregevoli e inconsuete ideazioni
nella confezione luminosa di ambienti su misura.

La luce non è mai stata così accesa

Light and shadow are sisters, they adorn one another
as if they are sculptures in motion.

The skilful rarefaction of luxury is created through
a combination of craft and modern design,
study and inventiveness, creating precious solutions.

Onyx and gold, marble, glass and filigree,
accurate workmanship toward a superior linearity,
refined engraving and unusual conceptions
in the lighting design of customised environments.

One day I was walking along Barcelona's port, when I saw a beautiful elegant sail boat suddenly it's sail broke free in the strong wind and turned upside down. It was the I thought to represent the wind, as a light source. The day after "Charme" was consieved, a ceiling lamp composed of the principal body like the mast of a boat and the deflector as the sail.

The "Presence" lamp was born of my first inspiration almost five years ago. I was sitting in front of the skyscrapers in Miami and during the sunset, a ray of sunlight hit and illuminated a skyscraper's wall, it was beautiful. In that moment I had an idea, to create a lamp with the appearance of a skyscraper using luxury materials such as marble and gold. Further more, I decided to include a touch dimmer to increase and decrease the light, like morning and night. I called it "Presence".
